```java
 1 package MULTISET;
 2 public class KeyedChar implements Keyed { // Keyed character implementation of Keyed
 3     private char theChar;
 4     public KeyedChar (char c) {
 5         theChar = c;
 6     }
 7     public String getKey( ) {
 8         return String.valueOf(theChar);
 9     }
10 }
```
